## **Declaration of conformity**

**Refers to EG-Directive: 2005/95/EG and 2005/717/EG**  
**Title: DecaBDE /Decabromodiphenyl Ethers)**

With effect from 1<sup>st</sup> of July 2008 the European court of justice has declared the exception No.9a of the EU-RoHS Directive for "DecaBDE in polymeric applications" – constituted by the Commission's decision 2005/717/EC – null and void.

Consequently the threshold of 0,1% on base of homogeneity materials for DecaBDE's applies again.

Hereby we confirm that products from Hartmann Codier do not contain

DecaBDE (Decabromodiphenylether)

resp. do not exceed the maximum quantity of 0,1% on base of homogeneity materials.

Accordingly all products from Hartmann Codier still do conform to the current EuRoHS Directive.

Baiersdorf, July 2008

  
Dr. Rainer Göstl  
Geschäftsführer
